WHERE WAR HURTS.

Work on Cape Fear Suspended-Idle Pilots at Southport and Wilmington. WILMINGTON, N. C., September 5.-The war affects different places in different ways, but it is hitting the river work in this vicinity a heavy blow. According to the statement of Major II. W. Stickle, United States engineer in charge of this district, 160 men have been laid off and thousands of dollars worth of equipment is idle on Cape Fear River on account of the lack of funds to keep up the work. This general stoppage is due to the tactics of Congress, which is absorbed by the present war situation, and which is holding up the appropriation bill, it is thought. The present bill, now in the holding up the appropriation bill, it is thought. The present bill, now in the balance, contains an appropriation of \$115,000 for work on the lower Cape Fear, but work has ceased until the measure is passed.

As direct result of the war, the pilotage business, which has been one of the chief commercial assests of the little town of Southport, at the mouth of the Cape Fear, has practically

The only two steamers to arrive recently are two German ships, which put into Southport for protection, and will likely remain there indefinitely.
